From the President . . .

Greetings from all of us at Cardinal Stritch College. Because elementary schools, high schools, and colleges operate on their own time schedule, one is tempted to say "Happy New Year," for each fall marks a new beginning for teachers, students, and parents. We trust that the months ahead will be replete with increased personal development, greater learning, and spiritual growth for everyone.

Of the many topics I could mention in this message, I should like to report on some of the recent experiences I have had as President of Stritch and the outstanding leaders I have been privileged to meet.

Representing the College, I have attended a number of major functions — a Civic Recognition Dinner for Dr. Werner Baum, former Chancellor of the University of Wisconsin-Milwaukee; a special reception for the Rev. Billy Graham; an Academic Convocation at Carroll College celebrating the conferral of an honorary degree upon His Holiness the XIV Dalai Lama, Tenzin Gyatso; a Community Dinner Salute to the Hebrew University featuring Ambassador and University President

Avraham Harman; and — the highlight for me — a trip to Catholic University, Washington, D.C., for participation in an "extraordinary convocation" honoring Pope John Paul II.

Needless to say, the impact of seeing and sometimes meeting these important national and international personalities is indeed both a rewarding and a humbling experience. If nothing else, it surely prompts the head of a small, midwestern Catholic college to gain new perspectives on facing problems and meeting challenges "back home."

Joining with the administrators of the five other corporations sponsored by the Sisters of St. Francis of Assisi, the College's officers and I devoted two days of intensive study and dialogue on the mission of the Church, current questions and their implications for Catholic institutions, and planning for the 80's.

At the same time, there is personal satisfaction as well as tremendous challenge in serving in an advisory capacity to two seminaries concerned with religious vocations, academic preparation, and spiritual formation of future priests.

Where does all of this leave me? Frankly, with a mind awl with questions ranging from the welfare of Stritch's students and status of our

College budget to major issues of ecumenical Church relations and World Peace . . . and from the nation's current economic indicators to demographic projections of potential college populations during the 1980's. All focus upon the tenuous future, of course.

But, as I listen and learn from individuals of the stature mentioned above, I cannot help but be reassured that, "Where there is faith, there is love; where there is love, there is peace; where there is peace, there is God; and where there is God, there is no need."

Sister Camille
